Notwithstanding anything contained in clause (c), compensation may be awarded in respect of the loss of any tolls which were lawfully levied on any river or channel at the time of the issue of the notification mentioned in section six.

In determining the amount of compensation under this section, regard shall be had to the diminution in the market-value, at the time of awarding compensation, of the property in respect of which compensation is claimed; and where such market-value is not ascertainable, the amount shall be reckoned at twelve times the amount of the diminution of the annual net profits of such property, caused by the exercise of the powers conferred by this Act.

No right to any such supply of water as is referred to in clauses (d), (e), or (f) of this section, in respect of a work or channel not in use at the date of the notification, shall be acquired as against the Government, except by grant or under the Indian Limitation Act, 1871, Part IV.

13. No claim for compensation for any such stoppage, diminution, or damage shall be entertained after the expiration of six months from such stoppage, diminution, or damage, unless the Collector is satisfied that the claimant had sufficient cause for not making the claim within such period.

14. On the day fixed in the notice mentioned in section nine, the Collector shall proceed to enquire summarily into the claim and to determine the amount of compensation which in his opinion should be allowed therefor, and shall tender such amount to the persons interested who have attended in pursuance of the notice given under section nine.

For the purpose of such enquiry, the Collector shall have power to summon and enforce the attendance of witnesses and to compel the production of documents by the same means and, as far as may be, in the same manner as is provided in the case of a Civil Court under the Code of Civil Procedure.

15. The Collector may, if no claimant attends pursuant to the notice, or if for any other cause he thinks fit, from time to time postpone the enquiry to a day to be fixed by him.

16. If the Collector and the persons interested agree as to the amount of compensation to be allowed, the Collector shall make an award under his hand for the same.

Such award shall be filed in the Collector's office, and shall be conclusive, as between the Collector and the persons interested, of the value of the said property and the amount of compensation allowed for the same.

17. If the Collector and the persons interested do not agree as to the amount of compensation to be allowed, or if upon the said enquiry any question respecting the title to the property of which the value has been diminished, or any rights there- to, or interest therein, arises between or among two or more persons making conflicting claims in respect thereof, the Collector shall refer the matter to the determination of the Court in manner hereinafter provided.

- (d) the grounds on which such amount was determined;

and shall place the amount so fixed by him in deposit, there to be held on account of the persons interested, and shall issue a notice to the persons believed to be interested, informing them that the said amount has been deposited as required by this section, and that, should no application be made to the Court (as provided in the next succeeding section) within six weeks of the issue of the notice on the last of the persons named therein, the Collector will pay the amount to any persons legally authorized to receive and to give an acquittance for the same.

An appeal shall lie from every such decision to the High Court, unless the Judge whose decision is appealed from is not the District Judge, in which case the appeal shall lie in the first instance to the District Judge.

26. The amount of compensation fixed by any award, proceeding, or decision as specified in the last preceding section, shall be deemed to be the full amount payable by the Government in respect of the claim dealt with therein; and the Government shall not be liable for any further claim to any person whatever in respect of any matter which was the subject of such award, pro-

28. Every tenant holding under an unexpired lease, or having a right of occupancy, who is in occupation of any land at the time when any stoppage or diminution of the supply, in respect of which compensation is allowed under section eleven, takes place, may claim an abatement of the rent previously payable by him for the said land, on the ground that the interruption reduces the value of the holding; provided that no part of the said compensation shall have been received by the said tenant in respect of such reduction in the value of his holding.

29. If a water-supply increasing the value of such holding is afterwards restored to the said land otherwise than at the cost of the tenant, the rent of the tenant may be enhanced, in respect of the increased value of such land due to the restored water-supply, to an amount not exceeding that at which it stood immediately before the abatement.

Such enhancement shall be on account only of the restored water-supply, and shall not affect the liability of the tenant to enhancement of rent on any other grounds.

30. All sums of money payable for compensation under this Part shall become due three months after the claim for such compensation is made in respect of the stoppage, diminution, or damage complained of, and simple interest at the rate of six per centum per annum shall be allowed on any such sum remaining unpaid after the said three months, except where the non-payment of such sum is caused by the wilful neglect or refusal of the claimant to receive the same.

Provided that the Collector may at any time invest the whole or any portion of the amount payable as compensation under this Act in any Government securities, and such securities shall be held by the Collector for the benefit of the persons interested, and the persons interested shall be bound to receive such securities with any interest which may have accrued upon them as full payment of the sum which the Collector paid for such securities, and of any sum which he may have paid as expenses incurred in purchasing the same, and of any interest which might otherwise have accrued on such sums.

31. No compensation shall be claimable under this Act in respect of any works executed before it came into force, or of any damage, injury, or loss caused by such works.

Whenever it may be practicable, the service of the notice shall be made on the person therein named.

When such person cannot be found, the service may be made on any adult male member of his family residing with him; and if no such adult male member can be found, the notice may be served by fixing the copy on the outer door of the house in which the person therein named ordinarily dwells or carries on business; and if such person has no ordinary place of residence within the district, service of any notice may be made by sending copy of such notice by post, in a registered cover addressed to such person at his usual place of residence.

PART III.

OF THE MAINTENANCE OF CANALS.

33. Whenever it shall be necessary to make any enquiry or examination in connection with a projected canal or with the maintenance of an existing canal, or with a projected flood-embankment or with the maintenance of an existing flood-embankment, any Canal Officer or other person acting under the general or special orders of a Canal Officer, may enter upon such lands as he may think necessary for the purpose, and may exercise all powers and do all things in respect of such lands as he might exercise and do if the Government had issued a notification under the provisions of section four of the Land Acquisition Act, 1870, to the effect that land in that locality is likely to be needed for a public purpose; and may set up and maintain water-gauges, and do all other things necessary for the prosecution of such enquiry and examination.

34. Such Canal Officer or other person may also enter upon any land, building, or village-channel on account of which any water-rate is chargeable, for the purpose of inspecting or regulating the use of the water supplied, or of measuring the lands irrigated thereby or chargeable with a water-rate, and of doing all things necessary for the proper regulation and management of the canal from which such water is supplied.

35. In case of any accident being apprehended or happening to a canal or flood-embankment, any Canal Officer or any person acting under his general or special orders in this behalf, may enter upon any lands adjacent to such canal or flood-embankment, and may execute all works which may be necessary for the purpose of preventing such accident, or repairing any damage done.

36. When such Canal Officer or person proposes, under the provisions of either of the three last preceding sections, to enter into

37. In every case of entry upon any land or building under section seven, section thirty-three, section thirty-four, or section thirty-five, the Canal Officer or person making the entry shall ascertain and record the nature of any crop, tree, building, or other property, to which damage has been done, and the extent of the damage done to any such property, and shall tender compensation to the proprietors or occupiers for all damage done to the same by the entry or by any works executed.

Compensation for damage to land.

If such tender is not accepted, the Canal Officer shall refer the matter to the Collector, who shall thereupon give notice in writing to the persons interested in such land and to the Canal Officer, requiring them to attend before him, on a date to be fixed in the notice, for the purpose of making enquiry as to the amount of compensation.

38. After such enquiry as he may think necessary, the Collector shall decide the amount of compensation payable; and

such decision shall be subject to an appeal to the Commissioner of the Division, provided that such appeal be presented to the Commissioner, or to the Collector for transmission to the Commissioner, within thirty days of the decision appealed against.

convenient section of any canal, the Collector, after causing such inspection to be made as may be necessary, shall certify to the Government that suitable and sufficient means of crossing the canal, and suitable and sufficient means of drainage, as aforesaid, have been provided; or shall report in what respects the provision made for the above purposes is defective; and if at any time after he shall have given such certificate it shall be brought to his notice that the provision made as above has proved insufficient, the Collector shall cause inquiry to be made into the circumstances of the case, and if the statement is established, shall report his opinion thereon for the consideration of the Lieutenant-Governor,

and the Lieutenant-Governor shall cause such measures in reference thereto to be taken as he thinks proper.

PART IV.

OF DRAINAGE.

40. Whenever it appears to the Lieutenant-Governor that injury to the

Lieutenant-Governor may prohibit formation of obstructions within certain limits.

public health or public convenience, or to any canal, or to any land for which irrigation from a canal is available, has arisen or may arise from the obstruction of any river, stream, or natural drainage-course, the Lieutenant-Governor may, by notification published in the *Calcutta Gazette*, prohibit, within limits to be defined in such notification, the formation of any such obstruction, or may, within such limits, order the removal or other modification of such obstruction.

Thereupon so much of the said river, stream, or natural drainage-channel as is comprised within such limits shall be held to be a drainage-work as defined in section three.

41. The Canal Officer or other person authorized by the Lieutenant-Governor in that behalf,

Canal Officer may issue notice to person causing obstructions.

may, after such publication, issue an order to the person causing or having control over any such obstruction, to remove or modify the same within a time to be fixed in the order.

42. If, within the time so fixed, such person

does not comply with the order, the Canal Officer may cause the obstruction to be removed or modified, and if the person to whom the order was issued does not, when called upon, pay the expenses of such removal or modification, such expenses shall be recoverable as a demand under the provisions of section one, Bengal Act VII of 1865 (an Act to make further provision for the recovery of arrears of land revenue and public demands recoverable as arrears of revenue).

43. Whenever it appears to the Lieutenant-Governor that any drainage

the Lieutenant-Governor may cause a scheme for such works to be drawn up and carried into execution, and the persons authorized by the Lieutenant-Governor to draw up and execute such scheme may exercise in connection therewith all or any of the powers conferred on Canal Officers by sections thirty-three, thirty-four, and thirty-five, and shall be liable to any or all of the obligations imposed upon Canal Officers by sections thirty-six and thirty-seven.

PART V.

OF VILLAGE-CHANNELS.

46. "Person" in this Part includes any number of persons acting jointly.

Definition of person.

47. The Canal Officer shall keep a register of all village-channels, whether already existing or constructed under this Act, and shall note thereon in respect of every village-channel whether it is a public channel maintained at the cost of the Government, or a private channel maintained at the cost of the owners; and shall register the names of the owners of every such private channel.

Register of village-channels to be kept.

A village-channel made as an extension of, or a branch to, an existing village-channel shall be registered as a separate village-channel; and so

much of the length of any village-channel as lies within the limits of any one village or mouzah shall be entered on the register as a separate village-channel. Every section of a village-channel so separately entered on the register shall be deemed to be a separate village-channel in respect of all rights and liabilities imposed by this Act.

Provided always that whenever it shall seem fit to the Canal Officer for any special reason to enter upon his register as one village-channel a section of a village-channel which includes portions lying within two or more villages or mouzaha, the Canal Officer may, with the consent of the Collector obtained in writing, register such section as one village-channel, and such section shall be deemed to be one village-channel in respect of all rights and liabilities imposed by this Act.

Canal Officer may register as one village-channel a section including portions lying within two or more villages.

48. Any person may, with the consent of the Canal Officer, acquire the property in an existing village-channel for the purpose of improving or maintaining it—

(a) by taking over any village-channel belonging to Government;

(b) by transfer of a village-channel from the owner thereof by private agreement.

49. Any person may, with the permission of a Canal Officer, construct a new village-channel if he has obtained the consent of the owners and occupiers of the land required therefor.

Any person may construct a new village-channel with consent of owners or occupiers.

50. Any person desiring the construction of a new village-channel, but being unable or unwilling to construct it under a private arrangement with the owners and occupiers of the land affected, as mentioned in the last preceding section, may apply in writing to the Canal Officer stating

Any person may construct village-channel by applying to Canal Officer.

that he desires the said Canal Officer, in his behalf and at his cost, to do all things necessary for constructing such village-channel;

that he is ready to defray all costs necessary for acquiring the land and constructing such village-channel.

51. If the Canal Officer considers the construction of such village-channel expedient, he may call upon the applicant to deposit any part of the expense such Officer may consider necessary,

and upon such deposit being made, shall cause inquiry to be made into the most suitable alignment for the said village-channel,

and shall mark out the land which, in his opinion, it will be necessary to occupy for the construction thereof,

and shall forthwith publish a notification in every village through which the village-channel is proposed to be taken, that so much of such land as is situated within such village has been so marked out,

and shall send a copy of such notification to the Collector of every district in which any part of such land is known to be situate for publication on such land.

Such notification shall also call upon any person who wishes to be admitted a joint owner of such village-channel to make his application in that respect within thirty days of the publication of such notification. If any such applicant appears, and his application is admitted, he shall be liable to pay his share in the construction of such village-channel and in the cost of acquiring such land, and shall be an owner of such village-channel when constructed.

Person wishing to be joint owner must make his application within thirty days.

52. On receipt of copy of such notification, the Collector shall proceed to acquire such land under the provisions of the Land

Collector to acquire land.

Acquisition Act, 1870, as if a declaration had been issued by the Government for the acquisition thereof under section six of that Act, and as if the Government had thereupon directed the Collector to take order for the acquisition of such land under section seven of the said Act, and (if necessary) as if the Government had issued orders for summary possession being taken under section seventeen of the said Act.

53. On being put in possession of the land the Canal Officer shall construct the required village-channel; and on its completion shall give to the applicant notice thereof, and of any sum payable by him on account of the cost of acquiring the land and constructing the village-channel. On such notice being given, such sum shall be due from the applicant to the Canal Officer. On receipt of payment in full of all expenses incurred,

the Canal Officer shall make over possession of such village-channel to such applicant.

54. Whenever a Canal Officer considers that the transfer of a village channel from the owner is necessary for the proper management of the irrigation from such village-channel, he may cause a notice to be served on the registered owner to appear on a certain day, not less than fifteen days after service of notice, and to prefer any objection to such transfer. After hearing such objection the Canal Officer may order that such village-channel shall be transferred to such person as he may think fit, and that such person be registered as owner of the said village-channel.

Provided that no person shall be registered as the owner of a village-channel under this section, unless he has expressed in writing his willingness to be so registered, and until he has paid to the Canal Officer such sum as may be fixed by the Canal Officer under section fifty-six.

55. Any person wishing to become the joint owner of an existing village-channel may petition the Canal Officer to that effect, and on receipt of such petition the Canal Officer may, if he think fit, issue a notice as provided in the last preceding section, upon the registered owner, and after hearing any objection which the registered owner may prefer against the admission of such applicant to be a joint owner, may direct that the applicant shall be registered as such joint owner.

56. When deciding the question of transfer or of admission to joint ownership under either of the two last preceding sections, the Canal Officer shall also determine what amount shall be paid—

as the costs of the proceedings;
as compensation to the previous owners;
and the amount so determined shall be due by the transferee or the person admitted to registry as a joint owner, as the case may be; and on payment of such amount, the village-channel shall be transferred, or the applicant shall be registered as owner or as a joint owner thereof, as the case may be.

57. Instead of awarding payment of compensation under the last preceding section, the Canal Officer may fix an amount of rent to be paid annually to the previous owners by the persons to whom the village-channel is transferred.

58. Every person

- (a) acquiring a village-channel as provided in section forty-eight; or
- (b) constructing a village-channel as provided in section forty-nine; or
- (c) receiving possession of a village-channel as provided in section fifty-three; or
- (d) acquiring a village-channel by transfer, as provided in section fifty-four, or
- (e) being admitted to registration as joint owner in a village-channel, as provided in section fifty-five,

shall be deemed to be an owner of such village-channel.

59. Every owner of a village-channel shall be bound—

- Obligations and rights of owner of village-channel.
- (a) to construct and maintain all works necessary for the passage across such village-channel of canals, village-channels, drainage-channels, and public roads existing at the time of its construction, and of the drainage intercepted by it, and for affording proper communications across it for the convenience of the occupants of neighbouring lands;
 - (b) to maintain such village-channel in a fit state of repair for the conveyance of water;
 - (c) to allow the use of it to others on such terms as may be declared equitable by the Canal Officer as hereinafter prescribed;
- and shall be entitled—
- (d) to have a supply of water by such village-channel at such rates and on such terms as are prescribed by the rules made by the Lieutenant-Governor under section ninety-nine;
 - (e) to receive such rent for the use of the village-channel by other persons as the Canal Officer may award him.

60. If the owner of a village-channel fails to fulfil the obligations mentioned in clauses (a) and (b) of the last preceding section the Canal Officer may require him by notice to execute the necessary works or repairs within a period not being less than fifteen days, and in the event of failure, may execute them on his behalf; and all expenses incurred by the execution of such works or repairs shall be a sum due by such owner to Government; and if any such owner who has already failed on one occasion to execute such works or repairs when required to do so, and has left them to be executed on his behalf by the Canal Officer, shall again fail to execute any such works or repairs when required to do so; or if any such owner shall refuse in any respect to fulfil the obligation mentioned in clause (c) of the last preceding section, after having been required to fulfil the same by a notice in writing from the Canal Officer, the Canal Officer may strike such village-channel off the register, and so disqualify it to be any longer a medium for the conveyance of canal water.

61. Any owner may resign his interest in a village-channel, provided such resignation be duly registered in the office of the Canal Officer.

62. Any owner of a village-channel may, with the consent of the Canal Officer, transfer his interest to any other person, provided that the liabilities of the person so transferring shall not come till such transfer is registered in the office of the Canal Officer.

63. If any owner of a village-channel dies, his legal representative may apply for registration in his stead. If no such application for registry be made within six weeks from the

death of the said owner, the remaining registered owners of the village-channel, if any, shall be deemed to be owners of the entire interest in the village-channel, until some other person shall have established his claim to be registered as owner in place of the deceased. If the deceased shall have been the sole registered owner, the Canal Officer shall be deemed to be his representative for the purposes of this Part, and shall exercise all rights and be bound by all liabilities which attached to the deceased in respect of his ownership of the said village-channel, until some person shall have established his right to be registered as owner thereof in place of the deceased; and the Canal Officer shall account to such person for all sums received and expended in the exercise of the rights and discharge of the liabilities which attached to the deceased in respect of such ownership.

64. When any person applies for registration under the three last preceding sections, the Canal Officer shall serve notice on the other registered owners to prefer any objection to the resignation, transfer, or succession within fifteen days, and if no such objection shall be made, or if the objections made be deemed invalid, shall order such resignation, transfer, or succession to be registered.

65. All joint owners of a village-channel shall be held to have an equal interest in it, unless, with the permission of the Canal Officer, they register specific unequal interests.

66. Any person not an owner of a village-channel, desiring to have a supply of water through such village-channel, may make a private arrangement with the owners for the conveyance of water, or may apply to the Canal Officer for authority to use such village-channel.

67. On receipt of such application, the Canal Officer shall serve notice on the owners to show cause why such permission should not be granted, and if no objection be raised, or if any objections be raised, and found invalid, shall authorize the conveyance of such supply on such conditions as may appear to him equitable.

68. The Canal Officer shall also fix a sum as rent to be paid for the use of such village-channel to the owner. Such rent may be in the form of a percentage on the water-rate of the person using the village-channel, or otherwise, as may be fixed by the Canal Officer.

69. The owner of a village-channel which receives its water through another village-channel may, at the discretion of the Canal Officer, either be declared a joint owner of such other village-channel, or may be required to pay rent for the use of the same to the owner thereof, as provided in the last preceding section.

70. All rent payable under either of the two last preceding sections shall be deemed to be due in the same instalments and at the

same periods as the water-rate is due, or in such other instalments and at such other dates as the Canal Officer may direct, and may be collected by the Canal Officer on behalf of the person entitled to it, if the Canal Officer thinks fit.

71. Any Canal Officer collecting rent under the last preceding section on behalf of any person entitled thereto, shall be bound to pay to the person entitled to the same no more than the amount actually collected by him as rent.

72. No land acquired under this Part for a village-channel shall be used for any other purpose without the consent of the Canal Officer previously obtained.

73. Every sum declared to be due under this Part shall be recoverable by the Canal Officer on behalf of the Government or of the person entitled to receive the same, and shall be held to be a demand under the provisions of section one of the aforesaid Bengal Act VII of 1868, or any other similar Act for the time being in force.

PART VI.

OF THE SUPPLY OF WATER.

74. Every person desiring that water shall be supplied to his land from a canal, shall present a written application to that effect to the Canal Officer, in the form given in Schedule (B) hereto annexed, or in a similar form, binding himself by the rules made by the Lieutenant-Governor under the powers vested in him by this Act; and no person shall be liable to pay any rate or due whatever, on account of water supplied to his land with the permission of the Canal Officer, otherwise than on such application, nor shall water be supplied otherwise than on such application.

75. If the application mentioned in the last preceding section be granted by the Canal Officer, the Canal Officer shall cause his permission to be recorded in the form given in Schedule (C) hereto annexed, or in some similar form, binding himself by the rules made by the Lieutenant-Governor as aforesaid.

76. All rules made by the Lieutenant-Governor under section ninety-nine shall be consistent with the following conditions:—

(a) The Canal Officer may not stop the supply of water to any village-channel, or to any person who is entitled to such supply, except in the following cases:—

- (i) whenever and so long as it is necessary to stop such supply for the purpose of executing any work ordered by competent authority;
- (ii) whenever and so long as any village-channel is not maintained in such repair as to prevent the wasteful escape of water therefrom;

(iii) whenever and so long as it is necessary to do so in rotation to supply the legitimate demands of other persons entitled to water;

(iv) whenever and so long as it may be necessary to stop the supply in order to prevent the wastage or misuse of water.

(b) No claim shall be made against the Government for compensation in respect of loss caused by the failure or stoppage of the water in a canal, by reason of any cause beyond the control of the Government, or of any repairs, alterations, or additions to the canal, or of any measures taken for regulating the proper flow of water therein, or for maintaining the established course of irrigation which the Canal Officer considers necessary; but the person suffering such loss shall be entitled to such remission of the ordinary charges payable for the use of the water as is authorized by the Lieutenant-Governor:

(c) If the supply of water to any land irrigated from a canal be interrupted otherwise than in the manner described in the last preceding clause, the occupier or owner of such land may present a petition for compensation to the Collector for any loss arising from such interruption, and the Collector shall award to the petitioner reasonable compensation for such loss:

(d) When the water of a canal is supplied for the irrigation of a single crop, the permission to use such water shall be held to continue only until that crop comes to maturity, and to apply only to that crop; but if it be supplied for irrigating two or more crops to be raised on the same land within the year, such permission shall be held to continue for one year from the commencement of the irrigation, and to apply to such crops only as are matured within that year:

(e) No person entitled to use the water of any canal, or any work, building, or land appertaining to any canal shall sell or sub-let or otherwise transfer his right to such use without the permission of the Canal Officer, but all contracts made between Government and the owner or occupier of any immovable property, as to the supply of canal-water to such property, shall be transferable therewith, and shall be presumed to have been so transferred whenever a transfer of such property takes place.

77. On application being made for a supply of water to be used for purposes other than those of irrigation, the Canal Officer may give permission for water to be taken for such purposes, under such special conditions and restrictions, as to the limitation and control of the supply, as he shall think proper to impose in each case.

PART VII.

OF WATER-RATES.

78. The rates to be charged for canal-water supplied for purposes of irrigation shall be determined by the Lieutenant-Governor, and all persons accepting the water shall pay for it accordingly.

79. If water supplied through a village-channel be used in an unauthorized manner, and if the person by whose act or neglect such use has occurred cannot be identified, the person on whose land such water has flowed, if such land has derived benefit therefrom,

or if no land has derived benefit therefrom, all the persons chargeable in respect of the water supplied through such village-channel in respect of the crop then on the ground, shall be liable to the charges made for such use, as determined by the Lieutenant-Governor under section ninety-nine.

80. If water supplied through a village-channel be suffered to run to waste, and if, after enquiry by the Canal Officer, the person through whose act or neglect such water was suffered to run to waste cannot be discovered, all the persons chargeable in respect of the water supplied through such village-channel for the crop then on the ground shall be jointly liable for the charges made in respect of the water so wasted, as determined by the Lieutenant-Governor under section ninety-nine.

All questions arising under this and the last preceding section shall be decided by the Canal Officer, subject to the provisions of section ninety-one.

81. All charges for the unauthorized use or for waste of water shall be deemed to be water-rate due on the crop, and may be recovered as such water-rate in addition to any penalties incurred on account of such use or waste.

82. The Canal Officer may enter into an agreement with any person for the collection and payment to the Government by such person of any sum payable under this Act by a third party.

83. Any sum lawfully due under this Part, either to the Government, or to any person who has entered into an agreement to collect dues for the Government and certified by the Canal Officer to be so due, shall be deemed to be rent payable on a pottah or engagement in respect of the land irrigated, and shall be recoverable as such by the person to whom it is payable.

Provided that the claim (if any) for rent in respect of such land shall have priority over any claim for arrears of water-rate so far as regards recovery of rent by the exercise of the power of distraint.

84. If any person distrains half or more than half of any crop on account of which water-rate is due, such person shall be bound, on requisition by the Canal Officer, to

furnish him with an account showing how the produce thus distrained has been appropriated in payment of such rent, and the Canal Officer shall be entitled to challenge such account before any Court competent to try suits for arrears of rent in respect of the land in question, and such Court, if it finds that the value of the crop distrained was in excess of the amount of rent which had been due for a period not longer than a year, together with the costs of the distraint, may require the distrainer to pay the water-rate due on such crop.

85. Every arrear of water-rate which is due to Government, and every sum due to Government by any person on account of collections of water-rate, and every sum due to such person on account of water-rate and certified by the Canal Officer to be so due, shall also be held to be a demand under the provisions of section one of the aforesaid Bengal Act VII of 1868, and may be recovered as provided in that Act, together with the costs of executing the processes.

Arrears of water-rate deemed to be a demand under Bengal Act VII of 1868.

86. Nothing in sections eighty-two to eighty-five (inclusive) applies to fines.

Sections eighty-two to eighty-five do not apply to fines.

PART VIII.

OF JURISDICTION.

87. Whenever a dispute arises between two or more persons in regard to their mutual rights or liabilities in respect of the use, construction, or maintenance of a village-channel, any such person interested may apply in writing to the Canal Officer stating the matter in dispute. Such officer shall thereupon give notice to the other persons interested that, on a day to be named in such notice, he will proceed to enquire into the said matter, and, after such enquiry, he may pass his order thereon, or may transfer the matter to the Collector, who shall thereupon enquire into and pass his order on the said matter.

88. Whenever any dispute arises among joint owners of a village-channel as to their shares of expense or as to the amounts severally contributed, or as to failure on the part of any owner to contribute his share, the matter may be decided after inquiry by the Canal Officer or Collector, as provided in the last preceding section.

89. Any order passed by the Collector, under either of the two last preceding sections, and, subject to the provisions of section ninety-one, any such order passed by a Canal Officer, shall remain in force until set aside by the decree of a Civil Court, and may be executed by any Canal Officer as if it were a decree of the Civil Court.

90. All suits arising out of the exercise of the power of distraint for recovery of water-rates, or out of any acts done under color of the exercise of the said power of distraint,

or by persons in receipt of the water-rates against any agents employed by them in the collection of such water-rates, or the sureties of such agents for money received or for accounts kept by such agents in the course of such employment, or for papers in their possession, shall be cognizable by the same Court or authority as would have jurisdiction if such water-rates were rent due for the land irrigated.

91. Every order passed by a Canal Officer under Part V. Part VI, Part VII, or Part VIII of this Act, shall be appealable to the Collector, provided that the appeal be presented within thirty days of the date on which the Canal Officer made the order appealed against; and no appeal shall lie against any proceeding or order of the Collector under this Act, except as otherwise expressly provided in this Act, but all such proceedings and orders shall be subject to the supervision and control of the Commissioner of the Division and of the Board of Revenue, who may pass such order thereon as they may respectively think fit.

92. Any officer empowered under this Act to conduct any enquiry may exercise all such powers connected with the summoning and examining of witnesses, as are conferred on Civil Courts by the Code of Civil Procedure; and every such enquiry shall be deemed a judicial proceeding.

For the purpose of such enquiry, the Collector shall have power to summon and enforce the attendance of witnesses and to compel the production of documents by the same means and, as far as may be, in the same manner as is provided in the case of a Civil Court under the Code of Civil Procedure.

15. The Collector may, if no claimant attends pursuant to the notice, or if for any other cause he thinks fit, from time to time postpone the enquiry to a day to be fixed by him.

16. If the Collector and the persons interested agree as to the amount of compensation to be allowed, the Collector shall make an award under his hand for the same.

Such award shall be filed in the Collector's office, and shall be conclusive, as between the Collector and the persons interested, of the value of the said property and the amount of compensation allowed for the same.

17. If the Collector and the persons inter-

18. If, when the Collector proceeds to make

On receipt of such application the Court shall proceed to determine the amount of compensation to be paid on account of the claim and all other matters, as if a reference had been made to it under section seventeen.

and sections twenty-six to thirty-six (inclusive) of the Land Acquisition Act, 1870.

Provided that instead of the last clause of the said section twenty-six, the following shall be read: "The provisions of this section and of section eleven of the Bengal Irrigation Act, 1876, shall be read to every assessor in a language which he understands, before he gives his opinion as to the amount of compensation to be awarded."

22. Where there are several persons interested,

Particulars of apportionment to be specified.

if such persons agree in the apportionment of the compensation, the particulars of such apportionment shall be specified in the award, whether such award be made by the Collector or by the Court, and as between such persons the award shall be conclusive evidence of the correctness of the apportionment.

23. When the amount of compensation has

been settled under section sixteen, if any dispute arises as to the apportionment of the same or any part thereof, the Collector shall refer such dispute to the decision of the Court.

All costs entailed by such a reference and the proceedings of the Court thereon shall be paid by the parties who dispute the apportionment of the compensation, in such proportions as the Court may direct, and the Collector shall not be required to disburse any such costs, nor shall any such costs be recovered from the Collector.

the High Court, unless the Judge whose decision is appealed from is not the District Judge, in which case the appeal shall lie in the first instance to the District Judge.

Every appeal under this section shall be presented within the time and in manner provided by the Code of Civil Procedure for regular appeals in suits.

made by the Collector in accordance with the award made by him under section sixteen; or the proceeding held by him under section eighteen, if no application be made to the Court as provided by section nineteen; or the award made by the Court or the decision of the Judge under section twenty-one; or in the case of an appeal under section twenty-four, in accordance with the decision in appeal, as the case may be.

26. The amount of compensation fixed by

Government not liable to any further claim.

any award, proceeding, or decision as specified in the last preceding section, shall be deemed to be the full amount payable by the Government in respect of the claim dealt with therein; and the Government shall not be liable for any further claim to any person whatever in respect of any matter which was the subject of such award, pro-

ceeding, or decision, nor shall any such claim be made against the Government in respect of the payment of any portion of such compensation in accordance with any award, proceeding, or decision as aforesaid, or in accordance with any decision of the Judge, or of the District Judge or of the High Court in appeal, as the case may be, under section twenty-four; and no suit shall be brought to set aside an award or decision under this Act.

27. Nothing contained in the last preceding section shall affect the liability of any person who may receive the whole or any part of any compensation awarded under this Act, to pay the same to the person lawfully entitled thereto.

28. Every tenant holding under an unexpired lease, or having a right of occupancy, who is in occupation of any land at the time when any stoppage or diminution of the supply, in respect of which compensation is allowed under section eleven, takes place, may claim an abatement of the rent previously payable by him for the said land, on the ground that the interruption reduces the value of the holding; provided that no part of the said compensation shall have been received by the said tenant in respect of such reduction in the value of his holding.

29. If a water-supply increasing the value of such holding is afterwards restored to the said land otherwise than at the cost of the tenant, the rent of the tenant may be enhanced, in respect of the increased value of such land due to the restored water-supply, to an amount not exceeding that at which it stood immediately before the abatement.

Such enhancement shall be on account only of the restored water-supply, and shall not affect the liability of the tenant to enhancement of rent on any other grounds.

30. All sums of money payable for compensation under this Part shall become due three months after the claim for such compensation is made in respect of the stoppage, diminution, or damage complained of, and simple interest at the rate of six per centum per annum shall be allowed on any such sum remaining unpaid after the said three months, except where the non-payment of such sum is caused by the wilful neglect or refusal of the claimant to receive the same.

Provided that the Collector may at any time invest the whole or any portion of the amount payable as compensation under this Act in any Government securities, and such securities shall be held by the Collector for the benefit of the persons interested, and the persons interested shall be bound to receive such securities with any interest which may have accrued upon them as full payment of the sum which the Collector paid for such securities, and of any sum which he may have paid as expenses incurred in purchasing the same, and of any interest which might otherwise have accrued on such sums.

31. No compensation shall be claimable under this Act in respect of any works executed before it came into force, or of any damage, injury, or loss caused by such works.

32. Service of any notice under this Part shall be made by delivering or tendering a copy thereof signed by the officer therein mentioned.

Whenever it may be practicable, the service of the notice shall be made on the person therein named.

When such person cannot be found, the service may be made on any adult male member of his family residing with him; and if no such adult male member can be found, the notice may be served by fixing the copy on the outer door of the house in which the person therein named ordinarily dwells or carries on business; and if such person has no ordinary place of residence within the district, service of any notice may be made by sending copy of such notice by post, in a registered cover addressed to such person at his usual place of residence.

PART III.

OF THE MAINTENANCE OF CANALS.

33. Whenever it shall be necessary to make any enquiry or examination in connection with a projected canal or with the maintenance of an existing canal, or with a projected flood-embankment or with the maintenance of an existing flood-embankment, any Canal Officer or other person acting under the general or special orders of a Canal Officer may enter upon such lands as he may think necessary for the purpose, and may exercise all powers and do all things in respect of such lands as he might exercise and do if the Government had issued a notification under the provisions of section four of the Land Acquisition Act, 1870, to the effect that land in that locality is likely to be needed for a public purpose; and may set up and maintain water-gauges, and do all other things necessary for the prosecution of such enquiry and examination.

34. Such Canal Officer or other person may also enter upon any land, building, or village-canal on account of which any water-rate is chargeable, for the purpose of inspecting or regulating the use of the water supplied or of measuring the lands irrigated thereby or chargeable with a water-rate, and of doing all things necessary for the proper regulation and management of the canal from which such water is supplied.

35. In case of any accident being apprehended or happening to a canal or flood-embankment, any Canal Officer or any person acting under his general or special orders in this behalf, may enter upon any lands adjacent to such canal or flood-embankment, and may execute all works which may be necessary for the purpose of preventing such accident, or repairing any damage done.

36. When such Canal Officer or person proposes, under the provisions of either of the three last preceding sections, to enter into

Notice to occupier of building, &c

any building or enclosed court or garden attached to a dwelling-house not supplied with water flowing from any canal, and not being adjacent to a flood-embankment, he shall previously give to the occupier of such building, court, or garden such reasonable notice as the urgency of the case may allow.

37. In every case of entry upon any land or building under section seven, section thirty-three, section thirty-four, or section thirty-

five, the Canal Officer or person making the entry shall ascertain and record the nature of any crop, tree, building, or other property, to which damage has been done and the extent of the damage done to any such property, and shall tender compensation to the proprietors or occupiers for all damage done to the same by the entry or by any works executed. If such tender is not accepted, the Canal Officer shall refer the matter to the Collector, who shall thereupon give notice in writing to the persons interested in such land and to the Canal Officer, requiring them to attend before him, on a date to be fixed in the notice, for the purpose of making enquiry as to the amount of compensation.

38. After such enquiry as he may think necessary, the Collector shall

decide the amount of compensation payable; and such decision shall be subject to an appeal to the Commissioner of the Division, provided that such appeal be presented to the Commissioner, or to the Collector for transmission to the Commissioner, within thirty days of the decision appealed against.

If no such appeal be preferred, the decision of the Collector, or if such appeal be preferred, the decision of the Commissioner, shall be final and conclusive.

39. Suitable means of crossing canals con-

Government to provide means of crossing canals and of drainage.

structed or maintained at the cost of Government shall be provided at such places as the Lieutenant-Governor thinks necessary for the reasonable convenience of the inhabitants of the adjacent lands; and suitable bridges, culverts, or other works shall be constructed to prevent the drainage of the adjacent lands being obstructed by any canal.

On the completion of any canal, or of any

convenient section of any canal, the Collector, after causing such inspection to be made as may be necessary, shall certify to the Government that suitable and sufficient means of crossing the canal, and suitable and sufficient means of drainage,

as aforesaid, have been provided; or shall report in what respects the provision made for the above purposes is defective; and if at any time after he shall have given such certificate it shall be brought to his notice that the provision made as above has proved insufficient, the Collector shall cause inquiry to be made into the circumstances of the case, and if the statement is established, shall report his opinion thereon for the consideration of the Lieutenant-Governor,

and the Lieutenant-Governor shall cause such measures in reference thereto to be taken as he thinks proper.

PART IV.

OF DRAINAGE.

40. Whenever it appears to the Lieutenant-

Lieutenant-Governor may by this formation of obstructions within certain limits.

Governor that injury to the public health or public convenience, or to any canal, or to any land for which

irrigation from a canal is available, has arisen or may arise from the obstruction of any river, stream, or natural drainage-course, the Lieutenant-Governor may, by notification published in the *Calcutta Gazette*, prohibit, within limits to be defined in such notification, the formation of any such obstruction, or may, within such limits, order the removal or other modification of such obstruction.

Thereupon so much of the said river, stream, or natural drainage-channel as is comprised within such limits shall be held to be a drainage-work as defined in section three.

41. The Canal Officer or other person autho-

Canal Officer may issue notice to person causing obstructions.

rized by the Lieutenant-Governor in that behalf, may, after such publication, issue an order to the person causing or having control over any such obstruction, to remove or modify the same within a time to be fixed in the order.

42. If, within the time so fixed, such person

Canal Officer may cause obstructions to be removed.

does not comply with the order, the Canal Officer may cause the obstruction to be removed or modified, and if the person to whom the order was issued does not, when called upon, pay the expenses of such removal or modification, such expenses shall be recoverable as a demand under the provisions of section one, Bengal Act VII of 1868 (an Act to make further provision for the recovery of arrears of land revenue and public demands recoverable as arrears of revenue).

43. Whenever it appears to the Lieutenant-

When drainage works are necessary Lieutenant-Governor may order a scheme to be drawn up and carried out.

Governor that any drainage works are necessary for the public health, or for the improvement or proper cultivation or irrigation of any lands in districts to which the provisions of the Bengal Embankment Act 1873 do not apply, or that protection from floods or other accumulations of water, or from erosion by a river, is required for any lands,

the Lieutenant-Governor may cause a scheme for such works to be drawn up and carried into execution, and the persons authorized by the Lieutenant-Governor to draw up and execute such scheme may exercise in connection therewith all or any of the powers conferred on Canal Officers by sections thirty-three, thirty-four, and thirty-five, and shall be liable to any or all of the obligations imposed upon Canal Officers by sections thirty-six and thirty-seven.

44. Whenever, in pursuance of a notification

Disposal of claims to compensation.

made under section forty, any obstruction is removed or modified;

or whenever any drainage-work is carried out under the last preceding section,

all claims for compensation on account of any loss consequent on the removal or modification of the said obstruction or the construction of such work, may be made before the Collector, and he shall deal with the same in the manner provided in Part II; but no compensation shall be allowed for any damage arising from increase of percolation.

45. No such claim shall be entertained after the expiration of six months from the occurrence of the loss complained of unless the Collector is satisfied that the claimant had sufficient cause for not making the claim within such period.

PART V.

OF VILLAGE-CHANNELS

46. "Person" in this Part includes any number of persons acting jointly

47. The Canal Officer shall keep a register of all village-channels, whether already existing or constructed under this Act, and shall note thereon in respect of every village-channel whether it is a public channel maintained at the cost of the Government, or a private channel maintained at the cost of the owners; and shall register the names of the owners of every such private channel.

A village-channel made as an extension of, or a branch to, an existing village-channel shall be registered as a separate village-channel; and so

much of the length of any village-channel as lies within the limits of any one village or mouzah shall be entered on the register as a separate village-channel. Every section of a village-channel so separately entered on the register shall be deemed to be a separate village-channel in respect of all rights and liabilities imposed by this Act.

Provided always that whenever it shall seem fit to the Canal Officer for any special reason to enter upon his register as one village-channel a section of a village-channel which includes portions lying within two or more villages or mouzahas, the Canal Officer may, with the consent of the Collector obtained in writing, register such section as one village-channel, and such section shall be deemed to be one village-channel in respect of all rights and liabilities imposed by this Act.

48. Any person may, with the consent of the Canal Officer, acquire the property in an existing village-channel for the purpose of improving or maintaining it—

- (a) by taking over any village-channel belonging to Government;
- (b) by transfer of a village-channel from the owner thereof by private agreement.

49. Any person may, with the permission of a Canal Officer, construct a new village-channel if he has obtained the consent of the owners and occupiers of the land required therefor.

50. Any person desiring the construction of a new village-channel, but being unable or unwilling to construct it under a private arrangement with the owners and occupiers of the land affected, as mentioned in the last preceding section, may apply in writing to the Canal Officer stating

that he desires the said Canal Officer, in his behalf and at his cost, to do all things necessary for constructing such village-channel;

that he is ready to defray all costs necessary for acquiring the land and constructing such village-channel.

51. If the Canal Officer considers the construction of such village-channel expedient, he may call upon the applicant to deposit any part of the expense such Officer may consider necessary,

and upon such deposit being made, shall cause inquiry to be made into the most suitable alignment for the said village-channel,

and shall mark out the land which, in his opinion, it will be necessary to occupy for the construction thereof,

and shall forthwith publish a notification in every village through which the village-channel is proposed to be taken, that so much of such land as is situated within such village has been so marked out.

and shall send a copy of such notification to the Collector of every district in which any part of such land is known to be situate for publication on such land.

Such notification shall also call upon any person who wishes to be admitted a joint owner of such village-channel to make his application in that respect within thirty days of the publication of such notification. If any such applicant appears, and his application is admitted, he shall be liable to pay his share in the construction of such village-channel and in the cost of acquiring such land, and shall be an owner of such village-channel when constructed.

52. On receipt of copy of such notification, the Collector shall proceed to acquire such land under the provisions of the Land Acquisition Act, 1870, as if a declaration had been issued by the Government for the acquisition thereof under section six of that Act, and as if the Government had thereupon directed the Collector to take order for the acquisition of such land under section seven of the said Act, and (if necessary) as if the Government had issued orders for summary possession being taken under section seventeen of the said Act.

53. On being put in possession of the land the Canal Officer shall construct the required village-channel; and on its completion shall give to the applicant notice thereof, and of any sum payable by him on account of the cost of acquiring the land and constructing the village-channel. On such notice being given, such sum shall be due from the applicant to the Canal Officer. On receipt of payment in full of all expenses incurred

the Canal Officer shall make over possession of such village-channel to such applicant.

54. Whenever a Canal Officer considers that the transfer of a village channel from the owner is necessary for the proper management of the irrigation from such village-channel, he may cause a notice to be served on the registered owner to appear on a certain day, not less than fifteen days after service of notice, and to prefer any objection to such transfer. After hearing such objection the Canal Officer may order that such village-channel shall be transferred to such person as he may think fit, and that such person be registered as owner of the said village-channel:

Canal Officer may direct transfer of a village-channel.

Provided that no person shall be registered as the owner of a village-channel under this section, unless he has expressed in writing his willingness to be so registered, and until he has paid to the Canal Officer such sum as may be fixed by the Canal Officer under section fifty-six.

55. Any person wishing to become the joint owner of an existing village-channel may petition the Canal Officer to that effect, and on receipt of such petition the Canal Officer may, if he think fit, issue a notice as provided in the last preceding section, upon the registered owner, and after hearing any objection which the registered owner may prefer against the admission of such applicant to be a joint owner, may direct that the applicant shall be registered as such joint owner.

A person may be admitted joint owner of an existing village-channel.

56. When deciding the question of transfer or of admission to joint ownership under either of the two last preceding sections, the Canal Officer shall also determine what amount shall be paid—

as the costs of the proceedings;
as compensation to the previous owners;
and the amount so determined shall be due by the transferee or the person admitted to registry as a joint owner, as the case may be; and on payment of such amount, the village-channel shall be transferred, or the applicant shall be registered as owner or as a joint owner thereof, as the case may be.

57. Instead of awarding payment of compensation under the last preceding section, the Canal Officer may fix an amount of rent to be paid annually to the previous owners by the persons to whom the village-channel is transferred.

Canal Officer may fix rent for a village-channel to be transferred.

Ownership of village-channel.

(a) acquiring a village-channel as provided in section forty-eight; or

(b) constructing a village-channel as provided in section forty-nine; or

(c) receiving possession of a village-channel as provided in section fifty-three; or

(d) acquiring a village-channel by transfer, as provided in section fifty-four, or

(e) being admitted to registration as joint owner in a village-channel, as provided in section fifty-five,

shall be deemed to be an owner of such village-channel.

59. Every owner of a village-channel shall be bound—

Obligations and rights of owner of village-channel.

(a) to construct and maintain all works necessary for the passage across such village-channel of canals, village-channels, drainage-channels, and public roads existing at the time of its construction, and of the drainage intercepted by it, and for affording proper communications across it for the convenience of the occupants of neighbouring lands;

(b) to maintain such village-channel in a fit state of repair for the conveyance of water;

(c) to allow the use of it to others on such terms as may be declared equitable by the Canal Officer as hereinafter prescribed;

and shall be entitled—

(d) to have a supply of water by such village-channel at such rates and on such terms as are prescribed by the rules made by the Lieutenant-Governor under section ninety-nine;

(e) to receive such rent for the use of the village-channel by other persons as the Canal Officer may award him.

60. If the owner of a village-channel fails to

If owner of village-channel fails to execute work or make repairs, Canal Officer may execute them on his behalf.

fulfil the obligations mentioned in clauses (a) and (b) of the last preceding section the Canal Officer may require

him by notice to execute the necessary works or repairs within a period not being less than fifteen days, and in the event of failure, may execute them on his behalf; and all expenses incurred by the execution of such works or repairs shall be a sum due by such owner to Government; and if any such owner who has already failed on one occasion to execute such works or repairs when required to do so, and has left them to be executed on his behalf by the Canal Officer, shall again fail to execute any such works or repairs when required to do so; or if any such owner shall refuse in any respect to fulfil the obligation mentioned in clause (c) of the last preceding section, after having been required to fulfil the same by a notice in writing from the Canal Officer, the Canal Officer may strike such village-channel off the register, and so disqualify it to be any longer a medium for the conveyance of canal water.

Resignation of ownership.

61. Any owner may resign his interest in a village-channel, provided such resignation be duly registered in the office of the Canal Officer.

62. Any owner of a village-channel may, with the consent of the Canal Officer, transfer his interest to any other person, provided that the liabilities of the person so transferring shall not cease till such transfer is registered in the office of the Canal Officer.

63. If any owner of a village-channel dies, his legal representative may apply for registration in his stead. If no such application for registry be made within six weeks from the

Procedure on death of owner of village-channel.

death of the said owner, the remaining registered owners of the village-channel, if any, shall be deemed to be owners of the entire interest in the village-channel, until some other person shall have established his claim to be registered as owner in place of the deceased. If the deceased shall have been the sole registered owner, the Canal Officer shall be deemed to be his representative for the purposes of this Part, and shall exercise all rights and be bound by all liabilities which attached to the deceased in respect of his ownership of the said village-channel, until some person shall have established his right to be registered as owner thereof in place of the deceased; and the Canal Officer shall account to such person for all sums received and expended in the exercise of the rights and discharge of the liabilities which attached to the deceased in respect of such ownership.

64. When any person applies for registration under the three last preceding sections, the Canal Officer shall serve notice on the other registered owners to prefer any objection to the resignation, transfer, or succession within fifteen days, and if no such objection shall be made, or if the objections made be deemed invalid, shall order such resignation, transfer, or succession to be registered.

65. All joint owners of a village-channel shall be held to have an equal interest in it, unless, with the permission of the Canal Officer, they register specific unequal interests.

66. Any person not an owner of a village-channel, desiring to have a supply of water through such village-channel, may make a private arrangement with the owners for the conveyance of water, or may apply to the Canal Officer for authority to use such village-channel.

67. On receipt of such application, the Canal Officer shall serve notice on the owners to show cause why such permission should not be granted, and if no objection be raised, or if any objections be raised, and found invalid, shall authorise the conveyance of such supply on such conditions as may appear to him equitable.

68. The Canal Officer shall also fix a sum as rent to be paid for the use of such village-channel to the owner. Such rent may be in the form of a percentage on the water-rate of the person using the village-channel, or otherwise, as may be fixed by the Canal Officer.

69. The owner of a village-channel which receives its water through another village-channel may, at the discretion of the Canal Officer, either be declared a joint owner of such other village-channel, or may be required to pay rent for the use of the same to the owner thereof, as provided in the last preceding section.

70. All rent payable under either of the two last preceding sections shall be deemed to be due in the same instalments and at the

same periods as the water-rate is due, or in such other instalments and at such other dates as the Canal Officer may direct, and may be collected by the Canal Officer on behalf of the person entitled to it, if the Canal Officer thinks fit.

71. Any Canal Officer collecting rent under the last preceding section on behalf of any person entitled thereto, shall be bound to pay to the person entitled to the same no more than the amount actually collected by him as rent.

72. No land acquired under this Part for a village-channel shall be used for any other purpose without the consent of the Canal Officer previously obtained.

73. Every sum declared to be due under this Part shall be recoverable by the Canal Officer on behalf of the Government or of the person entitled to receive the same, and shall be held to be a demand under the provisions of section one of the aforesaid Bengal Act VII of 1866, or any other similar Act for the time being in force.

PART VI.

OF THE SUPPLY OF WATER.

74. Every person desiring that water shall be supplied to his land from a canal, shall present a written application to that effect to the Canal Officer, in the form given in Schedule (B) hereto annexed, or in a similar form, binding himself by the rules made by the Lieutenant-Governor under the powers vested in him by this Act; and no person shall be liable to pay any rate or due whatever, on account of water supplied to his land with the permission of the Canal Officer, otherwise than on such application, nor shall water be supplied otherwise than on such application.

75. If the application mentioned in the last preceding section be granted by the Canal Officer, the Canal Officer shall cause his permission to be recorded in the form given in Schedule (C) hereto annexed, or in some similar form, binding himself by the rules made by the Lieutenant-Governor as aforesaid.

76. All rules made by the Lieutenant-Governor under section ninety-nine shall be consistent with the following conditions:—

(a) The Canal Officer may not stop the supply of water to any village-channel, or to any person who is entitled to such supply, except in the following cases:—

- i) whenever and so long as it is necessary to stop such supply for the purpose of executing any work ordered by competent authority;
- (ii) whenever and so long as any village-channel is not maintained in such repair as to prevent the wasteful escape of water therefrom;

(iii) whenever and so long as it is necessary to do so in rotation to supply the legitimate demands of other persons entitled to water;

(iv) whenever and so long as it may be necessary to stop the supply in order to prevent the wastage or misuse of water.

(b) No claim shall be made against the Government for compensation in respect of loss caused by the failure or stoppage of the water in a canal, by reason of any cause beyond the control of the Government, or of any repairs, alterations, or additions to the canal, or of any measures taken for regulating the proper flow of water therein, or for maintaining the established course of irrigation which the Canal Officer considers necessary; but the person suffering such loss shall be entitled to such remission of the ordinary charges payable for the use of the water as is authorized by the Lieutenant-Governor:

(c) If the supply of water to any land irrigated from a canal be interrupted otherwise than in the manner described in the last preceding clause, the occupier or owner of such land may present a petition for compensation to the Collector for any loss arising from such interruption, and the Collector shall award to the petitioner reasonable compensation for such loss:

(d) When the water of a canal is supplied for the irrigation of a single crop, the permission to use such water shall be held to continue only until that crop comes to maturity, and to apply only to that crop; but if it be supplied for irrigating two or more crops to be raised on the same land within the year, such permission shall be held to continue for one year from the commencement of the irrigation, and to apply to such crops only as are matured within that year:

(e) No person entitled to use the water of any canal, or any work, building, or land appertaining to any canal shall sell or sub-let or otherwise transfer his right to such use without the permission of the Canal Officer, but all contracts made between Government and the owner or occupier of any immovable property, as to the supply of canal-water to such property, shall be transferable therewith, and shall be presumed to have been so transferred whenever a transfer of such property takes place:

77. On application being made for a supply of water to be used for purposes other than those of irrigation, the Canal Officer may give permission for water to be taken for such purposes, under such special conditions and restrictions, as to the limitation and control of the supply, as he shall think proper to impose in each case.

PART VII.

OF WATER-RATES.

78. The rates to be charged for canal-water supplied for purposes of irrigation shall be determined by the Lieutenant-Governor, and all persons accepting the water shall pay for it accordingly.

79. If water supplied through a village-channel be used in an unauthorized manner, and if the person by whose act or neglect such use has occurred cannot be identified, the persons on whose land such water has flowed, if such land has derived benefit therefrom,

or if no land has derived benefit therefrom, all the persons chargeable in respect of the water supplied through such village-channel in respect of the crop then on the ground,

shall be liable to the charges made for such use, as determined by the Lieutenant-Governor under section ninety-nine.

80. 85. Every arrear of water-rate which is due to Government and every sum due to Government by any person on account of collections of water-rate, and every sum due to such person on account of water-rate and certified by the Canal Officer to be so due, shall also be held to be a demand under the provisions of section one of the aforesaid Bengal Act VII of 1868, and may be recovered as provided in that Act, together with the costs of executing the processes.
